Ali Mehdi Naqvi

New Delhi, India | 6388842837 | alimehdinaqvi05@gmail.com | Github | Portfolio | Leetcode |Linkedin

Summary

Aspiring Software Engineer with a strong foundation in Object-Oriented Programming (C++/Java) and Secure System Design. Experienced in building scalable web applications with a focus on Accessibility and Financial Technology. Proven ability to optimize performance and collaborate on full-stack solutions, with additional exposure to Mobile Development (Android SDK).

Education

Jamia Millia Islamia University | Bachelor of Technology (Computer Engineering) Aug'23 - May'27

Coursework Involved: OOP(C++/Java), Data Structures & Algorithms (DSA), Operating Systems, DBMS, Computer Networks, Software Engineering.

Work Experience

Versai Tech Solutions | **React Developer Intern** Jun'25 - Sep'25

- Developed reusable dashboard components in React 19, reducing code redundancy and ensuring UI consistency.
- Implemented Redux-based state management for tabs, selections, shared dashboard states or complex data flows.
- Integrated Chart.js to build interactive data visualizations, enabling clients to interpret analytics data effortlessly.
- Translated wireframes into responsive designs, ensuring compatibility across mobile and desktop devices.

The Jamia Review | **Web Developer** Oct'24 - Apr'25

- Built full website pages and features in Next.js, integrating content via Sanity CMS (GROQ).
- Implemented Infinite Scroll and payload optimization to reduce load times, enhancing performance for mobile users.
- Enhanced UI/UX by fixing layout issues and converting mobile wireframes into polished web-view designs
- Engineered a high-performance content platform using Next.js, achieving a 215% increase in user traffic through SEO and UX optimization.

Project

ClaimCheck | Automated Expense Fraud Detection System **repository**

- Built a secure cross-platform mobile app for automated expense fraud detection.
- Integrated AI image analysis to flag fake or manipulated receipts with >90% accuracy.
- Designed a direct-to-cloud S3 upload architecture using pre-signed URLs for security.
- Implemented RBAC for hierarchical access and a cryptographically hashed audit log.
- Tech: **Java Spring Boot, Flutter (Riverpod), PostgreSQL, Supabase (S3), Sightengine AI, JWT.**

Journal Application Backend (Spring Boot) **repository**

- Developed secure RESTful APIs for users and journal entries using Spring Boot.
- Implemented JWT authentication and Spring Security 6 for role-based access control.
- Integrated **MongoDB Atlas** with **Spring Data MongoDB** for scalable, document-based CRUD operations.
- Added email notifications and sentiment analysis API support.
- Tech: **Java, Spring Boot, JWT, Spring Security, MongoDB, Maven.**

SpendWise - Full-Stack Expense Tracker (Remix + MongoDB) **live-demo**

- Built a full-stack expense tracker with CRUD, monthly summaries, and chart-based analytics.
- Implemented custom auth using bcryptjs with protected and public route layouts.
- Created backend logic using Remix loaders/actions for CRUD, auth, and data summarization.
- Designed MongoDB schemas with Prisma and deployed on Vercel.

Portfolio Website (Next.js + Sanity CMS) **live-demo**

- Built a dynamic portfolio with CMS-driven blogs, projects, and editable profile sections.
- Created custom Sanity schemas and integrated GROQ queries for real-time content updates.
- Implemented ISR, dynamic routing, and a responsive UI using Next.js + TailwindCSS.
- Integrated Web3Forms contact form and deployed on Vercel.

Skills

- **Languages**: **C/C++**, **Java** (Strong OOP, Collections), JavaScript/TypeScript, SQL, **Dart** (Basic)
- **Backend &Security**: Spring Boot, Spring MVC, Spring Security (JWT, Role-Based Access), JPA/Hibernate, Maven, REST APIs, Microservices (basics)
- **Web Technologies**: React.js, Next.js, HTML5, CSS3 (Responsive Design, Accessibility/WCAG), TailwindCSS
- **Databases & Tools:** MongoDB (Atlas), MySQL, Git/GitHub, VS Code, Postman, **Android SDK**

Achievements

- Solved **300+ problems on LeetCode** **profile**
- Completed **Hacktoberfest 2025 (Top 10,000 finishers)** **profile**
